**ON YOUR ENERGY
COSTS WITH NEW
TECHNOLOGY
LED LIGHTING**

LEVIOR ENERGY provides high-quality, cost-efficient solutions for all of your interior and exterior electrical lighting needs. Take advantage of our free facility audit today.

Find out how you can get the fastest lighting ROI, typically in 6 – 18 months. Levior will handle all the details, including:

-  Complete site inspection and lighting inventory
-  All negotiation and approvals from your electric utility
-  Factory direct best-cost pricing
-  Turn-key product delivery and installation
-  Pre and Post your utility inspections when required

Our team of technicians will work to collect your property data and prepare a proposal that best suits your needs and helps conserve the most energy.

When you save energy you save money.

LEVIOR'S team provides field responsiveness, centralized management and a single point of contact for your project. Our team of highly qualified experts in design and energy analysis is supported by all required professional certifications

We specialize in using a generous electric utility energy contribution fund that allows for the upgrade of all your interior and exterior lights to new technology LED at **low or no cost.**

Our comprehensive services encompass LED lighting, energy design and analysis solutions, as well as implementation services. Every lighting solution will be UI-listed and meet the Design Lights Consortium (DLC) standards.
